

Math Teaching Award

Jennifer Guevara was selected as a 2009 winner of an Edyth May Sliffe Award for Distinguished Junior High/Middle School Mathematics Teaching.

This award, administered by the Mathematical Association of America (MAA), recognizes teachers who have contributed substantially to the success of some of the highest-scoring students on the American Mathematics Contest 8. Jennifer was selected because of the outstanding performance of Trinity Prep's top three students in each of the past three years. Their consistent excellent effort has placed TPS among the top schools in the region.

The Sliffe Award is made possible by a generous bequest of Edyth May Sliffe, a former mathematics teacher in Emeryville, California. It has been presented to high school teachers since 1989 and to middle school teachers since 1995.

Congratulations, Jennifer!
