

Trinity Preparatory School

Calculator Requirement for Pre-Algebra

The use of handheld technology is an integral component of education today. To ensure that our students here at Trinity Preparatory School continue to receive the most updated curricula, it is necessary to require each student to have his or her own handheld calculator.

For our **Pre-Algebra and Expanded Pre-Algebra** courses, the required model is the TI-30X IIS.

Please bring the TI Technology Rewards symbol (points) from the TI-30X IIS and the TI-Nspire CX packaging, located on the back of the calculator package to your mathematics teacher. An image of the TI Technology Rewards symbol appears below.

If you have any questions regarding the calculator requirement at Trinity Preparatory School, please contact your child's mathematics teacher or the Mathematics Department Chair, Donald Worcester, worcesterd@trinityprep.org.

Trinity Preparatory School

Calculator Requirements for Algebra I and Higher Mathematics Courses

The use of handheld technology is an integral component of education today. To ensure that our students here at Trinity Preparatory School continue to receive the most updated curricula, it is necessary to require each student to have his or her own handheld calculator.

For all of our mathematics courses at the **Algebra I level or higher**, the TI-Nspire CX II handheld is required. This is a new model for the 2019 – 2020 school year. Please be sure to purchase the model listed above. Please do not purchase the CAS version, this handheld will not be allowed in our courses below the AP level.

Your TI-Nspire CX II handheld will come with a code for computer software, please do not discard this information.

Please bring the TI Technology Rewards symbol (points) from the TI-Nspire CX II packaging, located on the back of the calculator package to your mathematics teacher. An image of the TI Technology Rewards symbol appears below.

If you have any questions regarding the calculator requirement at Trinity Preparatory School, please contact your child's mathematics teacher or the Mathematics Department Chair, Donald Worcester, worcesterd@trinityprep.org.
